

## **REMARKS**

This is meant to be a complete response to the Office Action mailed September 19, 2005. In the Office Action, the Examiner stated the application contains claims directed to the following patentably distinct species of the claimed invention:

Species A: decorative extension's outer edge positioned below, flush with, or beyond the outer peripheral edge of the sheet of material

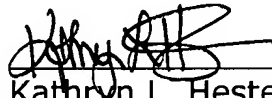

Species B: bonding material on either the inner or outer surface of the wrapper

The Examiner further stated that Applicant was required under 35 U.S.C. 121 to elect a single disclosed species combination for prosecution on the merits. Applicant respectfully elects, for Species A, the decorative extension's outer edge extending beyond the outer peripheral edge of the sheet of material, and for Species B, the bonding material on the inner surface of the wrapper. Claims 1-10 are readable on this Species election, as well as newly added claims 13 and 14. Newly added claims 11, 12 and 15 are currently withdrawn from consideration.

Further, the Examiner has indicated that claims 1-6 and 8-10 are generic. Applicant respectfully requests rejoinder and reconsideration of currently withdrawn claims 11, 12 and 15 upon allowance of any of claims 1-6 and 8-10.

Should the Examiner have any questions regarding this Amendment, or the remarks contained herein, Applicant's agent would welcome the opportunity to discuss such matters with the Examiner.

Respectfully submitted,

---
